

# GLOBALSIGHT CONNECTORS

Welocalize Provides API Connectors that Streamline Global Content Management Processes and Transform Content Management Platforms into Multilingual Publishing Engines

## OVERVIEW

Efficiency and increased time to market for our clients drive Welocalize's efforts to provide interconnectivity solutions for multilingual content management processes and systems. We know that the ability to publish global content that is timely and relevant is paramount for content marketing organizations.

The Welocalize Development Team continues to release the latest interconnectivity solutions that meet our client's workflow optimization requirements. We currently offer the following connectors to third-party party platforms:

### Content Management System (CMS) Connectors

Adobe Experience Manager (AEM)  
Blaise  
Drupal  
WordPress  
COTI Levels 1,2 and 3 Compliance

### Version Control Systems (VCS) Connectors

CVS  
Git

### E-Marketing Platform Connectors

Eloqua

From seamless integrations with the industry leading systems, to custom integrations with proprietary systems, Welocalize strives to make your translation and localization process easier. Further, connectivity with GlobalSight requires minimal assistance from IT and development so getting started is simple.

### Connecting is Easy

You can quickly and easily connect by accessing the kits on the GlobalSight Web Services API wiki: [http://www.globalsight.com/wiki/index.php/GlobalSight\\_Web\\_Services\\_API](http://www.globalsight.com/wiki/index.php/GlobalSight_Web_Services_API). You may learn more about and download GlobalSight TMS at [www.globalsight.com](http://www.globalsight.com).

## BENEFITS

- Simple and fast integration
- Eliminates tedious and manual workflows
- Faster time to market
- Centralized translation content management
- Increased return on investment (ROI)
- Increased productivity

Collaborate to Innovate

## WHY GLOBALSIGHT?

GlobalSight, our open-source translation management platform, manages the end-to-end localization process. With a multi-vendor model, GlobalSight provides a robust, easy-to-access platform for managing, translating and delivering global content. GlobalSight offers low-risk, flexible and scalable technology at a fraction of the cost of other commercial translation management systems in the market today. The GlobalSight initiative is led by a steering committee from a broad range of corporate leaders in the localization community. Find out more at [www.GlobalSight.com](http://www.GlobalSight.com).
